To all TECNI Ltd Customers

Registration, Evaluation, Authorisation and Restriction of Chemicals

We hereby confirm that products manufactured & supplied by TECNI Ltd are in full compliance with the latest Candidate List of substances of very high concern for Authorisation published in accordance with Article 59(10) of the REACH Regulation EC 1907/2006.

We endeavour to ensure that our products do not contain any SVHC substances above the recommended limit of 0.1% of the mass of the product.

We can confirm that TECNI Ltd do not import or manufacture individual chemicals or substances but only finished articles. Under REACH guidelines articles are exempt from registration unless they contain substances that are intentionally released during use. The products that we stock, manufacture and supply do not intentionally release any substance during use.

We work continuously with our suppliers to ensure that products and raw materials supplied to us are also in compliance with the regulations.

For TECNI Ltd
